

# Pulmonary Fibrosis Trust

Raising **awareness** of pulmonary fibrosis and providing personal **support** to all those affected

**Voted as Charity  
of the Year 2021/22  
by Prestige Awards**

The Pulmonary Fibrosis Trust is a UK registered charity, established 10 years ago. Its primary aim to help those affected by the progressive, incurable lung disease, pulmonary fibrosis.

We do this in 4 main ways, emotional support, raising awareness, research funding and practical support. The latter we do by providing mobility aids like scooters, portable oxygen and stairlifts.

We also provide a holiday home for free use of patients. This fully equipped, mains connected 3 berth caravan, located by a sandy beach, has been a resounding success and is fully booked for the remainder of the year.
