

# Quitting smoking: the benefits

Quitting smoking improves the quality and length of your life. Immediately after your last cigarette, your body will feel the benefits.

## Choose better fertility

The negative impact of smoking on male and female fertility will be reversed.<sup>5</sup>

## Choose to feel young

Your skin will be rejuvenated – you could look 13 years younger.<sup>4</sup>

Stop smoking

## Choose healthy lungs

Your lungs will work better.<sup>1</sup>

## Choose more energy

Your blood circulation will improve, making physical activity easier... this will also give you more energy.<sup>2</sup>

## Choose to cough less

Cough, phlegm and wheeze decrease.<sup>3</sup>

# Choose a longer life

## How many years can be gained back?

Additional years added to your life expectancy if you quit smoking at these ages.<sup>6</sup>

Ask your healthcare professional about where you can find support to quit smoking.
